FY 2024 Cash Collections Report as of August 2023 Summary

Fiscal Year-to-Date through August:

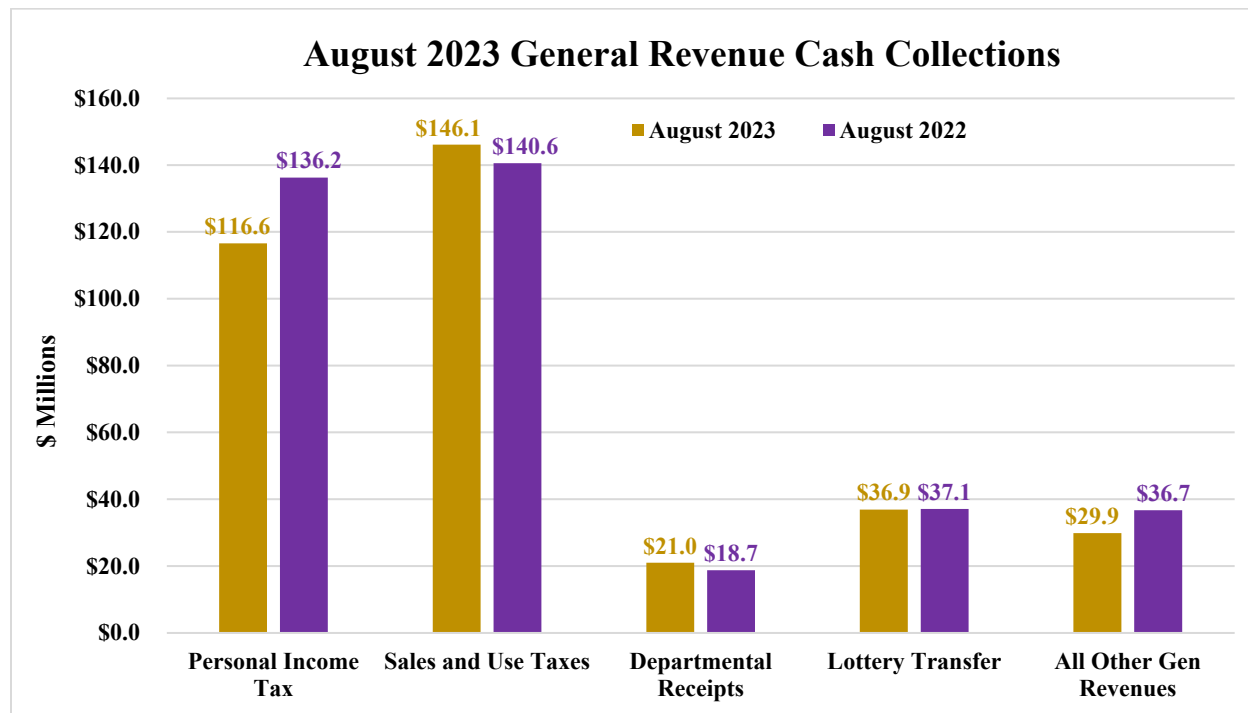

FY 2024 total general revenue cash collections through August were \$702.1 million, down \$142.1 million, or 16.8%, from the \$844.2 million collected in the same period in FY 2023. The breakdown by major general revenue components is as follows:

- Personal income tax cash collections rose 1.0%, with final payments up 28.6% and estimated payments down 33.1% compared to last fiscal year.
- Sales and use tax collections showed 4.2% growth year-to-date.
- The decrease in departmental receipts is largely due to the decrease in the hospital licensing fee due to a shift in the timing of hospital licensing fee deposits. Without the hospital licensing fee, the percent change in total general revenue would have been 2.4%.

Month of August:

August 2023 total general revenue cash collections were \$350.4 million, down \$19.0 million, or 5.1%, over the \$369.3 million collected in August 2022. The breakdown by major general revenue components is as follows:

- Personal income tax cash collections were down by 14.4%, mostly due to decline in withholding payments by 15.1%. There were four due dates for withholding in August 2023 compared to five in August 2022.
- Sales and use tax collections continued its strong performance, with 3.9% growth year-over-year.

Motor Fuel Tax:

- The per-penny yield of the state's gas tax was down 0.4% in August and up 2.1% year to date. The gas tax, unlike the other revenue items discussed in this report, is not a general revenue.

How to Read this Report

The tables on the following pages present a year-to-date and monthly look at cash collections compared to last year. The rest of the report looks at each major revenue category and presents component data as available, along with any commentary about nuances in cash flows. An appendix at the end of the report presents data about specific events that have caused differences in cash flows between fiscal years.

Refund Activity	August 2023	August 2022
Number of Refunds	9,718	11,639
Average refund	\$978	\$988

Background Information about this Category:

The majority of personal income tax is received through withholding of taxes on employee paychecks. Taxpayers with income that is not subject to withholding are required to make four estimated payments throughout the course of the year, on the 15th of April, June, September, and January. Any taxpayers would still owe taxes when filing their final return must submit a final payment by April 15th. Taxpayers who have overpaid, or are able to claim various tax credits, receive a refund after they file. Taxpayers who file for an extension must file their tax return by October 15th but are still required to make their final payment by April 15th. Refunds are primarily issued in February through June.

Rhode Island also has a voluntary pass-through entity tax. The collections from this tax show up in corporate income tax but will be moved to personal income tax by the Controller at the end of the fiscal year. Pass-through entities are businesses where income is passed directly to the owners or investors of the business. These members pay tax on this income under the personal income tax. Optionally, the entities themselves can pay the tax at the entity level. In this case, the members receive a tax credit to offset their personal income tax liability for that income (because the tax was already collected at the entity level and subjecting that same income to personal income tax would amount to double taxation). The largest month for these payments is December, followed by March (when final pass-through entity tax returns are due) along with the other typical estimated payment months.

Sales and Use Tax Cash Collections by Component

Rhode Island's tax system can present data for three components of the state's sales and use tax: sales tax on meals and beverages (typically from restaurants and other prepared food), sales tax on car sales paid at the Division of Motor Vehicles, and the sales tax portion of the state hotel tax. Hotel tax data lags by two months, and therefore is not presented here. The other two components are shown, along with a third bucket that includes all other sales and use tax collections.

Other Sales and Use Receipts	104,097,558	98,489,331	5,608,226	5.7%

Background Information about this Category:

Sales tax is a levy imposed on the retail sale, rental, or lease of many goods and services at a rate of 7%. Individuals and businesses owe use tax if they do not pay sales tax at the time of purchase. Sales and use tax returns are due on the twentieth day of the month after the transaction. This means that sales tax data generally represents consumption for the prior month. The one exception is sales tax paid at the Division of Motor Vehicles, which is more contemporaneous with the actual sale.

Starting in FY 2024, motor vehicle license and registration fees are no longer general revenues and have been fully transferred to the Highway Maintenance Account. FY 2023 cash collections do include two license fees (duplicate license and license update fees) that had been retained as general revenues.

Rhode Island cigarettes tax receipts are comprised of excise taxes collected on the sale of cigarettes (wholesale cigarette stamps), sales of smokeless tobacco (which also includes cigars and pipe tobacco), and a one-time cigarette floor stock tax. The cigarette floor stock tax is imposed only when there is an increase in the excise tax rate on cigarettes but may include late payments for prior rate increases.

For calendar tax year corporations, this equates to April, June, September, and December. The fiscal year-to-date and monthly tables below are based on data provided by the Controller and break down departmental receipts cash collections by component. Each table includes the three accounts with the largest nominal increases or decreases greater than \$100,000 in the given departmental receipts category. If there are less than three accounts that meet this qualification, only the accounts with nominal increases or decreases greater than \$100,000 are listed.

Notes about Fiscal Year-to-Date through August:

- FY 2023 collections contain the majority of the FY 2022 hospital licensing fee (HLF), which was received in July 2022 and accrued back to FY 2022 (with the exception of the HLF from Eleanor Slater that was paid in June of FY 2022). The FY 2023 enacted budget shifted this due date up one month from July to June. This meant that most of the FY 2023 HLF was paid in June 2023 leaving a much smaller portion of the FY 2023 HLF to be paid in FY 2024, which accounts for the large year-over-year decline. It is expected that FY 2024 HLF will primarily be paid in June 2024. The FY 2023 HLF was assessed at 5.42% on hospital fiscal year 2021 net patient revenues. The HLF was restructured for FY 2024 to have three tiers with differing fees based on inpatient and outpatient net patient-services revenue.
