FY 2024 Cash Collections Report as of November 2023 Summary

Fiscal Year-to-Date through November:

FY 2024 total general revenue cash collections through November were \$1.96 billion, down \$82.8 million, or -4.1%, from the \$2.04 billion collected in the same period in FY 2023. The breakdown by major general revenue components is as follows:

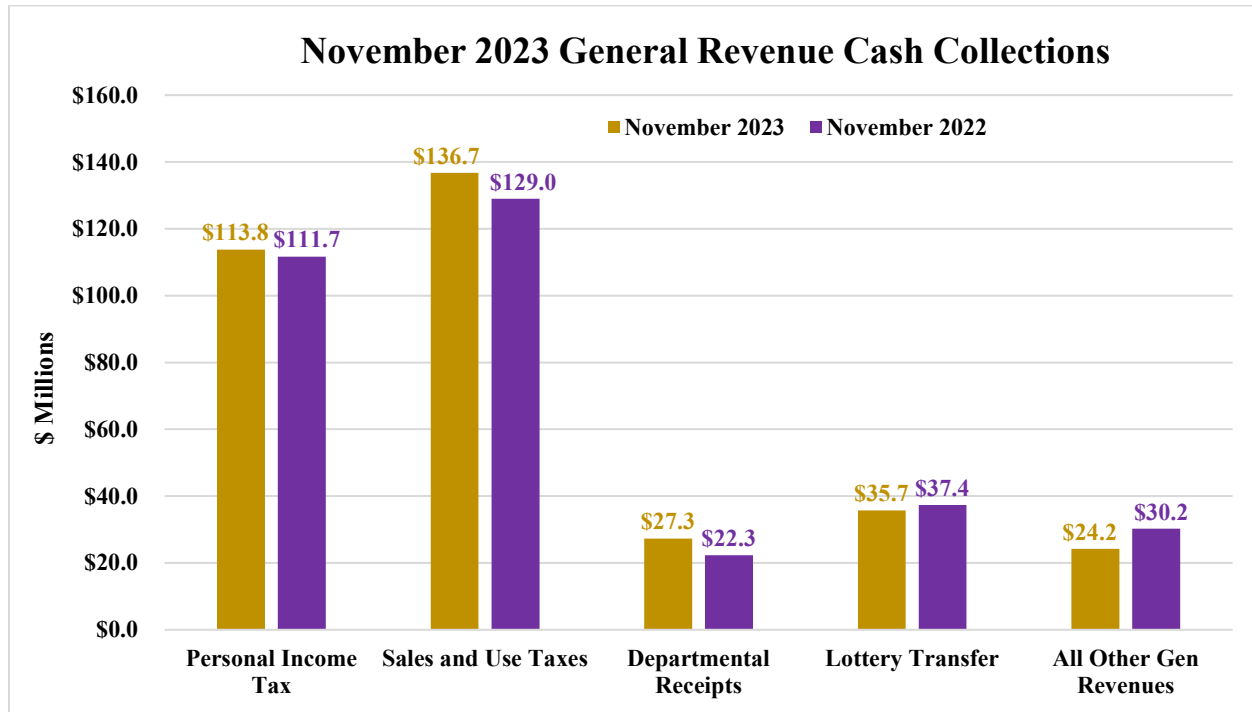

- Personal income tax cash collections rose 3.4%, with estimated payments down \$24.5 million. This decline in estimated payments was offset by \$30.6 million less in refund payments compared to last year. Last year through November the state had issued \$41.6 million in child tax rebates which did not reoccur in FY 2024.
- Sales and use tax collections showed 4.1% growth year-to-date.

- The decrease in departmental receipts is largely due to the decrease in the hospital licensing fee due to a shift in the timing of hospital licensing fee deposits.

Month of November:

November 2023 total general revenue cash collections were \$337.7 million, up \$7.2 million, or 2.2%, over the \$330.5 million collected in November 2022. The breakdown by major general revenue components is as follows:

- Personal income tax cash collections were up by 1.9%, mostly due to an increase in withholding payments of \$3.5 million. This increase was offset by \$2.7 million less in estimated payments.
- Sales and use tax collections showed 6.0% growth year-over-year.

Motor Fuel Tax:

- The per-penny yield of the state's gas tax was down 7.4% in November and 1.9% year to date. The gas tax, unlike the other revenue items discussed in this report, is not a general revenue.

Background Information about this Category:

The majority of personal income tax is received through withholding of taxes on employee paychecks. Taxpayers with income that is not subject to withholding are required to make four estimated payments throughout the course of the year, on the 15th of April, June, September, and January. Any taxpayers would still owe taxes when filing their final return must submit a final payment by April 15th. Taxpayers who have overpaid, or are able to claim various tax credits, receive a refund after they file. Taxpayers who file for an extension must file their tax return by October 15th but are still required to make their final payment by April 15th. Refunds are primarily issued in February through June.

Rhode Island also has a voluntary pass-through entity tax. The collections from this tax show up in corporate income tax but will be moved to personal income tax by the Controller at the end of the fiscal year. Pass-through entities are businesses where income is passed directly to the owners or investors of the business. These members pay tax on this income under the personal income tax. Optionally, the entities themselves can pay the tax at the entity level. In this case, the members receive a tax credit to offset their personal income tax liability for that income (because the tax was already collected at the entity level and subjecting that same income to personal income tax would amount to double taxation). The largest month for these payments is December, followed by March (when final pass-through entity tax returns are due) along with the other typical estimated payment months.

Sales and Use Tax Cash Collections by Component

Rhode Island's tax system can present data for three components of the state's sales and use tax: sales tax on meals and beverages (typically from restaurants and other prepared food), sales tax on car sales paid at the Division of Motor Vehicles, and the sales tax portion of the state hotel tax. Hotel tax data lags by two months, and therefore is not presented here. The other two components are shown, along with a third bucket that includes all other sales and use tax collections.

Other Sales and Use Receipts	101,409,972	93,205,308	8,204,663	8.8%

Background Information about this Category:

Sales tax is a levy imposed on the retail sale, rental, or lease of many goods and services at a rate of 7%. Individuals and businesses owe use tax if they do not pay sales tax at the time of purchase. Sales and use tax returns are due on the twentieth day of the month after the transaction. This means that sales tax data generally represents consumption for the prior month. The one exception is sales tax paid at the Division of Motor Vehicles, which is more contemporaneous with the actual sale.

Starting in FY 2024, motor vehicle license and registration fees are no longer general revenues and have been fully transferred to the Highway Maintenance Account. FY 2023 cash collections do include two license fees (duplicate license and license update fees) that had been retained as general revenues.

Rhode Island cigarettes tax receipts are comprised of excise taxes collected on the sale of cigarettes (wholesale cigarette stamps), sales of smokeless tobacco (which also includes cigars and pipe tobacco), and a one-time cigarette floor stock tax. The cigarette floor stock tax is imposed only when there is an increase in the excise tax rate on cigarettes but may include late payments for prior rate increases.

- The FY 2024 enacted budget eliminates the requirement for businesses that sell to-go food or beverages to obtain and annually renew a litter control participation permit.
- FY 2023 collections contain the majority of the FY 2022 hospital licensing fee (HLF), which was received in July 2022 and accrued back to FY 2022 (with the exception of the HLF from Eleanor Slater that was paid in June of FY 2022). The FY 2023 enacted budget shifted this due date up one month from July to June. This meant that most of the FY 2023 HLF was paid in June 2023 leaving a much smaller portion of the FY 2023 HLF to be paid in FY 2024, which accounts for the large year-over-year decline. It is expected that FY 2024 HLF will primarily be paid in June 2024. The FY 2023 HLF was assessed at 5.42% on hospital fiscal year 2021 net patient revenues. The HLF was restructured for FY 2024 to have three tiers with differing fees based on inpatient and outpatient net patient-services revenue.
